Subject: **Technical recognition of the company P.J. Ferramentas Lda.**

Dear Sirs,

We come to express our recognition, for your company's contribution in a decisive way to the good development of the projects in course at Bombardier Transportation Portugal.

We would like to evidence your behaviour, while supplier of B.U. - Carbodies for Incentro "Nantes" project, a project with high complexity requirements and quality, recognized internationally. The structural parts supplied by P.J. Ferramentas were subject to rigorous quality tests and have always overcome without any problem. I also enhance your participation in the project CP2000 and BR145 (suburban trains for Porto and Cascais and locomotives to the international market) for which your collaboration has been quite important, this way your company is at this time a qualified supplier for Bombardier Transportation Portugal, and it consists in our database to be used at international level by the Group.

It is our conviction, that your company will be a precious partner for the future and that it won't lack opportunities to narrow even more our commercial, technical and personal relationship that without any doubts shall reveal itself profitable.

Yours Truly.

Carlos Alves
